

Track your Adventure

Ten Dollar Adventure features several distinct storylines with unique achievements. You can save, view, and print out a certificate with all your achievements on our website.

How does this work? Each time you make a choice in the story, look for the  badge on the top corner of the page you turn to. Write down that code in the Adventure Log. Keep recording the codes as you read; you will end up with a sequence of eight or nine codes per story.

Next, visit TenDollarAdventure.com/Track. The website will give you three magic words. Write them down below—they are your secret key to saving and remembering all your adventures.

Enter each new code sequence in the Adventure Log on the website to update your certificate with the latest achievements. Keep recording new achievements or print the certificate out to share with friends, teachers, and family.
